VERBAL TESTIMONY

LB 1055

For the record – February 5, 2020

Sheri St Clair
League of Women Voters – Nebraska

We are in support of LB1055. The League of Women Voters works to fight barriers to voter participation. Having an in-person option is essential for voters who need to use ADA compliant voting machines, need help reading their ballot or simply have a personal preference of voting in person.

The proposed legislation serves to guarantee that Nebraskans in all counties will always have the option to vote in person.
